

Witch Finger, Teardrop, Cotton Candy? These Are Grapes?!

Here is an entire article about grapes.

Usually we see bags of grapes at the store and we're like, "aw cute, but I'll take the wine part instead," because grapes are just little punching bags of sugar and you might as well be eating circus peanuts. They're good for cheese plates though, so we'll give them that.

Then Witch Finger grapes came along. Long, thin grapes that taste like grapes but look like bent pinky fingers in the most creepy yet delightful way. They're in season in the tiny window of mid-July until early August, stalk them in specialty stores—I found them at [Eli's Market](#) on the Upper East Side of Manhattan, where producer manager Sal Schillizzi told me customers ask about the grapes weeks before they've arrived. Of course they do! It's the Upper East Side.
